

## Custom Beats FAQ

How do I communicate the concept for my own original beat?

1. You can send your conceptual framework to [jazz@smallpondstudios](mailto:jazz@smallpondstudios). Be as specific as you can. Include your return email or telephone where you can be reached. Include the best time to talk.
2. You can make an appointment to sit with Jazz and discuss your concept. We will schedule your 1 hour consult in as quick a time frame as possible. To book 1 hour call (800)934-3951. You will be asked to put \$50 down. You will be sent an invoice for that amount and you can pay from the invoice. Time is valuable and we want to be sure you are committed.
3. The \$50 will be applied to your total cost of \$500. Once you have decided to go further and have your own beat made, we will require a non-refundable deposit of \$250 to be paid on agreement with balance due (\$200) on completion and delivery of your .WAV file.

Can I pay by credit card or cash?

Yes. The invoice sent to you has a link for payment for your convenience.

Is the beat mine and mine alone?

Yes. You will have sole rights to the beat. It cannot be resold to another client.

Why is the cost of the Custom Beat Package \$500?

During the creation of your beat, we may have to consult the services of any musicians we deem necessary. Your creation can take upwards of 40 hours to complete.

What are stems?

Stems are the individual tracks before mixing. The advantage to having them is for the benefit of re-mixing by a third party. It is not a stereo mix.

What is the process?

Once we start creating your beat, you will be sent an .mp3 file that is watermarked for your approval and for you to use for rehearsing. You will add your vocal in our studio or send us a well recorded vocal track to be mixed and mastered. Once finalized, you will be sent a WAV file with no watermark. It is then released to you for distribution, as per the appropriate Option selected by you.
